1 Uploading data from OECD and Statcan and Integrating Them

1.1 File *GDP_comp.py*

In *GDP_comp.py* I upload OECD data and Statcan data and integrate them by

1. Converting Statcan from CAD to USD
2. Mapping the Statcan sectors (more detailed) to OECD sectors

GDP_comp.py is the same as *func_upload_data.py* where I upload OECD and statcan data into *income_multipliers*.

1.2 Plotting T as function of year

plot_T_vs_time.py plots T of the 6 ICT sectors as function of year. Sector G (wholesaling) has variability in T .

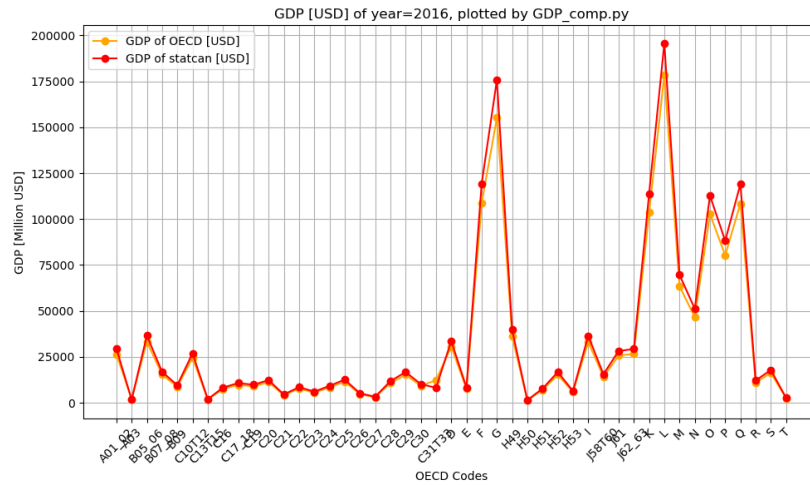

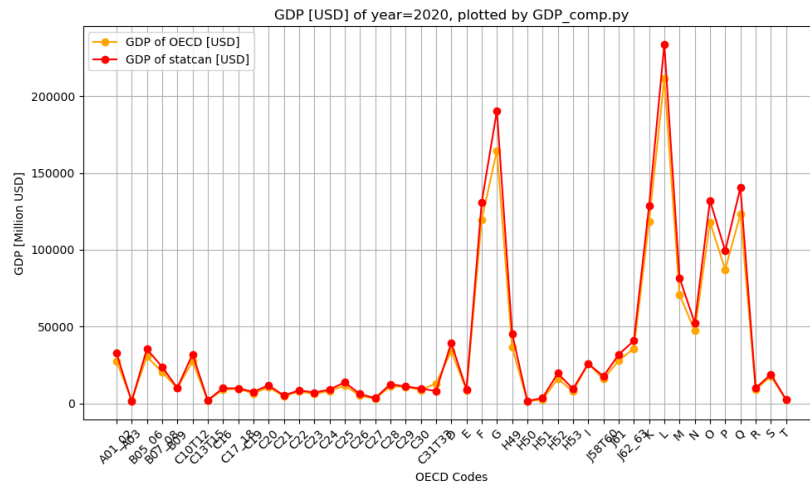

Figure 1: Value Added by Sector (StatCan, 2016)

Column Values in T per Sector, by Year

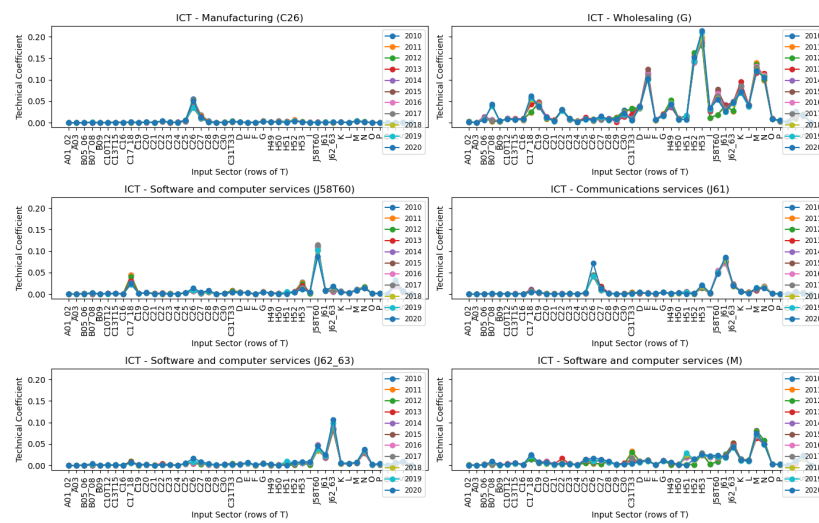

Figure 3: Value Added by Sector (StatCan, 2020)
